#### PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-03-09-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mrs. Michelle W. Owenby, Director, Division of Air Pollution Control, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, 15<sup>th</sup> Floor, Nashville, Tennessee 37243 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Any individuals with disabilities who wish to participate in these proceedings or to review these filings should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such initial contact may be in person, by writing, telephone, or other means, and should be made no less than ten (10) days prior to the hearing, or the date such party intends to review such filings, to allow time to provide such aid or service. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 2<sup>nd</sup> Floor, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, Nashville, TN 37243, (866) 253-5827 (toll free) or (615) 532-0200. Hearing impaired callers may use the Tennessee Relay Service (1-800-848-0298).

The applicant is Jarden Zinc Products, LLC with a mailing address of 2500 Old Stage Road, Greeneville, TN 37645. They seek to obtain air contaminant permits for following operations:

- a) Division Identification Number: 30-0009-09/72406  
This permit would be for a modification to increase the waste water discharge rate from an existing water treatment operation used for the destruction of cyanide within process water. A wet scrubber would be used for emissions control. There would not be physical construction.
- b) Division Identification Number 30-0009-30/72347; 30-0009-31/72348  
Each of these two permits would be for the construction of a new cyanide and non-cyanide electroplating line, and associated equipment, used to process coinage. A wet scrubber would be used for emissions control. There would be physical construction.
- c) Division Identification Number 30-0009-32/72373; 30-0009-33/72455  
This permit would be for the construction of two acid and non-acid bath lines, and associated equipment, for coinage testing. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction.

Regulated air contaminants would be emitted by these sources. Mr. B. Hall is the assigned Division person.
